Solution-oriented and passionate computer science student and aspiring software engineer eager to learn new skills along with new technologies to implement robust solutions.

Experience

Full Stack Developer	**Brewcipe**
	A coffee recipe sharing Web Application

- Successfully collaborated in designing and developing a user-friendly interface
- Implemented back-end using NodeJS and REST API
- Implemented designed and implemented a database using MongoDB

Android Developer	**Budget Builder**
	A gamified budgeting mobile application

- Collaboratively brainstormed interface and features
- Developed a mobile application for Android using Kotlin
- Created an API to manipulate information stored on an SQL database

Education

2018 - Present   **BS Computer Science Major in Software Technology**
De La Salle University - Manila, Manila
Dean's Lister (2018 - Current)
Current GPA: 3.826

Technical Skills

Natural Language Processing
Preprocessing, Language Modelling, Text Generation, Stanford CoreNLP, Tensorflow

Web Development
Javascript, NodeJs, Handlebars, Bootstrap

Database Management
MySQL, SQLite, NoSQL, MongoDB

Cloud-Based Technologies
AWS

Mobile Development
Android Applications, Kotlin, Java

Game Development
Unity, C#
